Today is the day I am going to expose some of the TRUTH about whats been happening behind scenes at Rockford Scanner that I have held in too long.

You can all thank the construction crew in Loves Park, working at Harlem rd, just East of Perryville. For making me get to this point. I have kept my mouth shut on ALOT of things. And I am done. I have publicly supported the politicians, police officers, firefighters for years. Even though they have censored Rockford Scanner and have physically and verbally attacked me.

Things would have worked a lot better running a 2 way street, but the police have chosen they want to run a 1 way street. With me and the public.

-

Many public officials and servants hate Rockford Scanner, because I kinda tell it like it is. And the facts prove their "statistics" wrong. So I have dealt with a lot of stuff behind scenes. I have publicly supported them

The day my dad passed away, right after I left the hospital!!!! I had two ISP officers pull me over near Auburn and Rockton. Their excuse was no seatbelt. They pulled their typical routine, gave me a false ticket for no seatbelt. They let me go then pulled me back over a few blocks down the road and pulled their guns on me and tried yanking me out the vehicle screaming really loud about how they hate Rockford Scanner because they do not like how I post the stuff I do and how the public should not know about it.

Last year I had a heart to heart discussion with Epperson and Hoey in their private room. Well you all know what happened... Well during that discussion they made it very clear on how they censor the media and how they only tell the media what they want to be heard. If a murder happened, all they had to do was tell the media nothing happened. And well nothing was reported. They said they run 60 channels on their system, but yet only 2 are unencrypted (to make the public happy they said)

You remember when that lady stabbed her child multiple times on Woodrow? I was the only one on scene for media that night. Two officers came up to me and said they were going to kill my family and me if I broke that story. They made some very strong threats that night. Saying how they were going to pull my family over and torture them, and leave em for dead tied to a tree out in a field. Needless to say I am all about freedom of speech, so I broke that story because the public deserved to know about it.

When Rockford Scanner first started I had several firefighters on the Loves Park Fire Department, make some disturbing threats because they didnt like how I posted the facts on a story. So they cornered me one night at a business and said: They were going to kidnap my wife and 2 daughters. Rape my wife, and at the time 10 year old daughter and my 1 year old daughter. While they made me watch. Then slit their throats and let them bleed out. And then rape them again. And then kill me and then burn our bodies in acid. Then burn our house down.

You remember when there was an accident and a search for a suspect at 11th st and 5th ave, about a month ago. Police everywhere. K-9 searching, etc... And yet the police say there was nothing that happened. Welcome to my world. This happens ALOT to Rockford Scanner.

I get pulled over all the time, just so they can scream and harass me and tell me how I need to shut down Rockford Scanner. I had them beat my ass out on Meridian rd one night. And other time near Loves Truck Stop in Roscoe. And another time on Baxter rd. The one on Baxter, he decided to use a tazer gun and zapped me countless times. All because they do not want Rockford Scanner around.

Yeah, This is just a few of the things that have happened. I have a lot of this on video and audio, because I carry several hidden cameras on me, because of this stuff. And if push comes to shove, I am going to go public with more stuff and videos.

So, this lovely city of ours is not so lovely at all, when it comes to our public officials censoring the media and RS. And trying to make things look better than they are. I post the stuff, because i want our fans to know what is going on. I care less about statistics or politics. I care about our fans and their safety. Unlike some of these people that are supposed to protect and serve.

From this point forward, I am done. You pull one more stunt, and i will make sure everyone who has copies of this evidence and my lawyers, will make this public. You want to continue to harass and attack me, GAME ON! I am done holding in the truth. The public deserves to hear the truth, and that is what I am going to bring them!!!

I am sure once I post this, they will pull some more bullshit or hell maybe dead. But at least now the public has some knowledge what goes on behind the scenes that I never make public. And trust me, this is barely the tip of the iceberg!!!

Screen captures of all of this, for when it eventually gets taken down. And you really should just post all of what you have, including video. No use holding back. You know they're going to call your hand. What will holding on to the rest of this alleged iceberg help you? Post it all and let those responsible burn in the wake that follows. If this is as major as you make it seem, you won't have to worry about local censorship because major media outlets will step in.

Someone call Dateline. And I'm serious. No one should have to deal with that harassment.

I would respect your calls for freedom of speech if you didn't censor your facebook page. What a hypocrite.

I use to be on a committee to shut down the drug houses, in Rockford. We were continually harrassed, pulled over for no reason, the cops would show up at restaurants and sit next to us & heckle us. So I know what he is saying is true...we have a lot of dirty cops in this town. Our group disbanded because the threats were getting out of hand.

Well, we have a mayor that hides his "real" life so why should we not think that they all hide and expect us to hide the facts? I've wanted to start a neighborhood watch but am told I need to call it an "association" so not to make it look bad for the city. No, if I do it, it will be a neighborhood watch so thugs know we are watching. I'm glad you are exposing this stuff and I can't imagine how you managed to take this crap and keep it to yourself. Time to bring in "outside" investigators. But, I bet there's no records of them pulling you over and harassing you. Rockford needs a complete overhaul.

I don't throw around words like 'evil' lightly, but sometimes I get the feeling that the people in charge of Rockford are doing some heinous things and getting away with it through lies, manipulation, and apparently outright brutality. People need to see through the bullshit and wake up. This only continues to go on because the public turns the other way
